JANE SHOOTER

Web Developer & Designer

janeshooter.website@gmail.com | Ontario, Canada | linkedin.com/in/janeshooter | jlouca.github.io

PROFESSIONAL SUMMARY

Web Developer & Designer with 7+ years of hands-on freelance experience building, customizing, and maintaining user-friendly websites, backed by 25+ years in customer service and client-facing problem-solving. Skilled across WordPress development, front-end fundamentals, and modern development workflows including version control, containerization, and CI/CD pipelines. Combines technical range with strong client communication to deliver projects on time and troubleshoot issues quickly.

CORE SKILLS

- **Web Development:** HTML, CSS, JavaScript, WordPress (custom blocks, plugin setup, Elementor, Divi), responsive design
- **E-Commerce & SEO:** WooCommerce, API integration, Yoast SEO, RankMath
- **Version Control & Workflow:** Git & GitHub (branching, pull requests), npm/Yarn, CI/CD pipelines (build, lint, test)
- **DevOps Tools:** Docker (container builds and deployment), Snyk (security scanning)
- **Design:** Canva, brand and layout design, UI/UX polish
- **Client & Project Management:** Requirements gathering, deadline management, ongoing support and troubleshooting

SELECTED PROJECTS

- **Chris Pflum** (thechrispflum.com): Designed and built a WordPress site for a cloud technology executive, with a filterable blog, About and Contact pages, and a custom logo. Ongoing post editing, optimization, and site management.
- **The Dirty Gardener** (thedg.ca): Designed, host, and manage the website for my own gardening business, including the logo and all of the content.
- **Raven:** Helped launch and maintain a private aviation membership website: containerized hosting, automated deployments to AWS, and hands-on troubleshooting.

EXPERIENCE

Freelance Web Developer & Designer *2019 – Present*

- Designed and developed custom, responsive websites and e-commerce solutions for small business clients.
- Customized sites using HTML, CSS, JavaScript, and WordPress, improving functionality and UX/UI.
- Integrated version control (Git/GitHub) and CI/CD pipelines into development workflows for more reliable, repeatable deployments.
- Used Docker for containerized builds and Snyk for dependency security scanning on client projects.
- Improved site visibility through SEO best practices using Yoast and RankMath.
- Managed client relationships end-to-end: gathering requirements, proposing solutions, and delivering on time and within budget.
- Provided ongoing support, troubleshooting bugs, optimizing site speed, and performing security updates.

Sales Associate, Rona *2011 – Present*

- Delivered consistent, high-quality customer service and sales support in a fast-paced retail environment.
- Applied problem-solving and communication skills directly transferable to client-facing web development work.
